

# **in / Out**

Line Calls and Stats for Everyone

## **QUICK SETUP GUIDE**

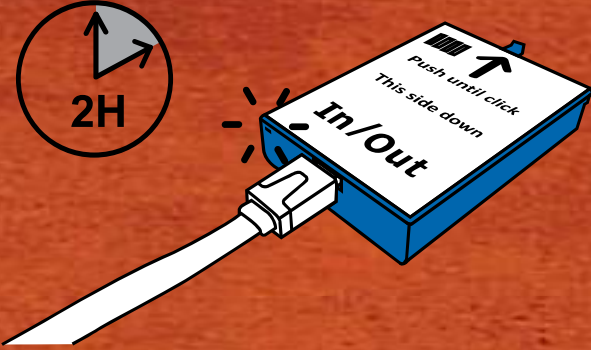

**Visit the support website  
for additional information:**

**<http://inout.tennis/support>**

# START-UP

**1**

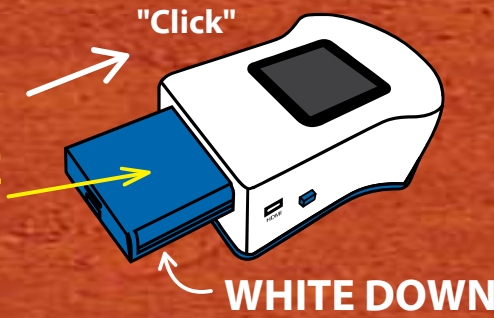

Charge the battery until the red light turns off.

### IN/OUT TIP

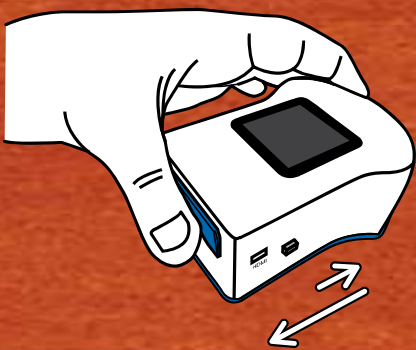

- It takes two hours to charge the battery completely.
- The battery can be charged from a power outlet or with a standard power bank. In/Out can be operational and charging at the same time on the court if needed.

**2**

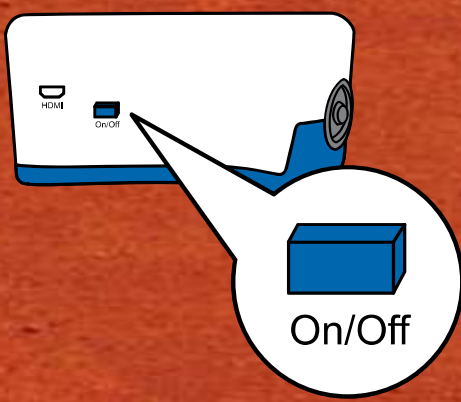

Insert the battery with the **blue face up on top** and **white face down**.

**2'**

To remove the battery, push it inwards. The clip will eject it.

**3**

Press the power button to turn on the device.

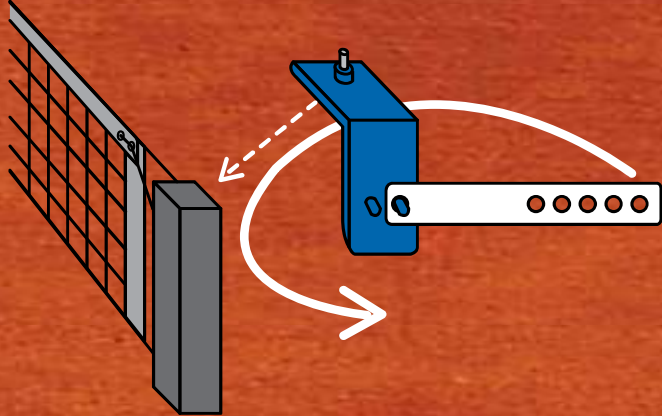

### IN/OUT TIP

- To hard shutdown the device, press and hold the power button for three seconds.
- Upgrade of the device can be done over the air or from a microSD card. Visit: <http://support.inout.tennis/firmware-upgrade> for more information.

# ON COURT

**1**

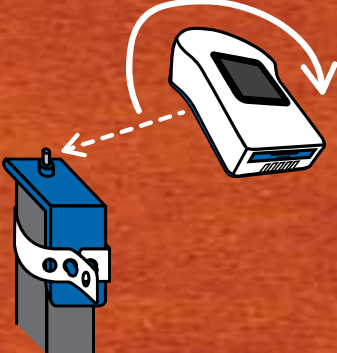

**Strap the band around the net post.**

**IN/OUT TIP**

- In/Out uses cameras. For best results, place the device on the net post facing away from the sun.
- Make sure to be behind the the device during setup as the cameras have a very wide viewing angle.

**2**

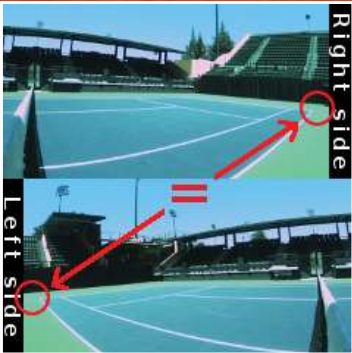

**Screw on the device until there is resistance, then do one more turn.**

**3**

**Start the device, press "Line Call".**

**4**

**Adjust the whole court.**

**5**

**Press Find court.**

**6**

**Enjoy line calling!**

# SETTINGS

1

Press Settings. Chose Practice or match mode.

## IN/OUT TIP

- In practice mode (free play), only the side and base lines are called.
- In match mode, the serve lines are called when the rally point starts.
- Train serve modes only call the serve lines.

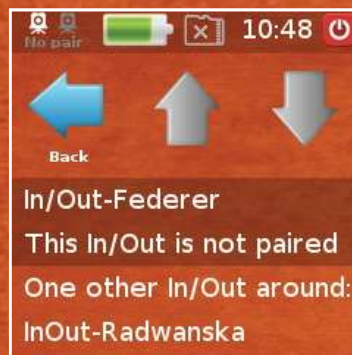

Two devices are recommended for double mode.

## IN/OUT TIP

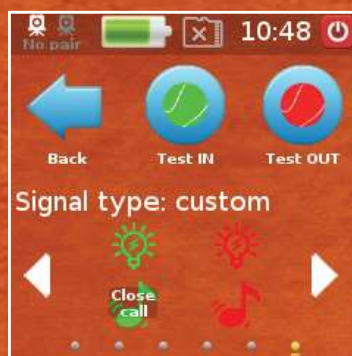

- Once paired, two devices will automatically look for each other next time.
- Both devices communicate together in real-time to make the best call possible.

2

Pair a second device to get better accuracy.

3

Customize the sound and lights of calls.

## IN/OUT TIP

- Use the customs signal mode to independently change the signal settings.
- The "Close Call" option is triggered only when the call is very close to the line.

Respect other players if the signal disturbs them.

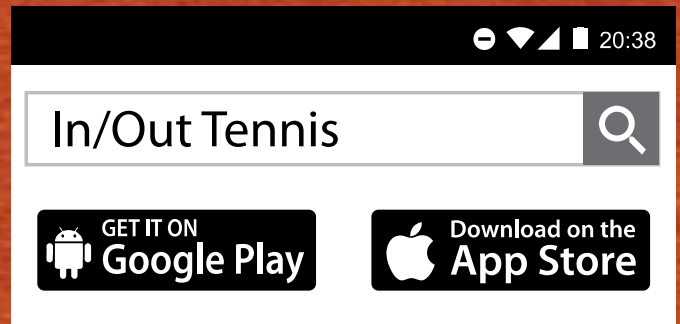

# COMPANION APP & WEB

In/Out works in standalone mode without any other device.

The Companion App and the web interface provide additional features such as screen mirroring, video playback and stats analysis.

1

Search and install the Companion App.

2

Go to Home->Settings->Advanced for the In/Out Wi-Fi network name and password.

## IN/OUT TIP

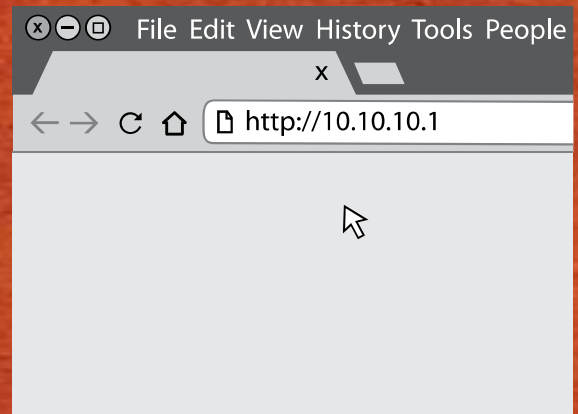

- The Wi-Fi network name is derived from grand slams and ATP / WTA finals winners.
- Press the Wi-Fi logo and the device will toggle between the 2.4GHz and 5GHz bands.
- After associating Wi-Fi, go to <http://10.10.10.1/about.html> and chose your favorite player as the network name.

3

Connect a computer, a laptop, a phone, or a tablet over Wi-Fi.

4

Open the Companion App or point a browser to <http://10.10.10.1>.
